Forecast for Saturday 22 Jun 2024

Weather: Cloudy with rain or drizzle first thing. This clearing away through the morning to leave a dry, sunny day. Southwesterly winds will strengthen through the late afternoon and evening ahead of more low cloud and patchy drizzle arriving through the night.

Chance of cloud-free hill tops above 800m: 30% at first, rising to 90% during the day, falling to 20% or less again after dark

Low cloud and visibility: Widespread low cloud to 300-400m or so in the early hours and poor visibilities in rain, drizzle or hill fog. This clearing away through the morning to leave mostly clear skies and excellent visibilities. Low cloud down to 300m or so pushing back in again through the night with associated poor visibilities.

Meteorologist's View

Good sunny spells today will call for suitable eye and skin protection. Windy conditions developing later will make for fairly arduous walking on exposed terrain with buffeting of clothing. Balance may be affected at times

Forecast for Sunday 23 Jun 2024

Weather: Cloudy in the early hours with some patchy light drizzle. Clearing through the morning to leave a dry, sunny day. A touch warmer than Saturday.

Maximum wind: West or Southwest 10mph.

Chance of cloud-free hill tops above 800m: 30% first thing, rising to 90% or more.

Low cloud and visibility: Widespread low cloud down to 300-400m in the early hours and associated poor visibilities. This will clear in the morning to leave clear skies and excellent visibilities.

Temperature: **Valleys:** Plus 13 rising to plus 17 Celsius.
 At 800m: Plus 8 Celsius.
 Freezing level: Above summits.
